## KANSAS INDUSTRIAL AND EDUCATIONAL INSTITUTE.

By Theodore E. McCord.

Never before in the history of civilization has the idea of industrial training obtained such a grip upon the civilized world. The great European war showed to the world the fallacy of training men theoretically only. The greatest reform in history is now going on in our educational systems, and technical and industrial schools are rapidly regaining their rightfully deserved place.

Back in the spring of 1895 Mr. Edward Stephen and Miss Lela Reddick established a training school for children on the bank of the Shunganunga Creek, near Washington St. From that date the school has gradually grown until now it occupies a site of 105 acres, 1 1/2 miles east of Topeka.

on the Midland Trail. There are nine beautifully constructed stone buildings, with all modern conveniences, on the campus. Boys and girls who attend the institution live in the dormitories. The school is situated upon a hill overlooking the city of Topeka, giving a most wonderful scenic effect.

The Kansas Industrial & Educational Institute is planning to give to the students this year a course of study that is equal or better than any other school of its kind. Seven courses in all are offered next term. Literary training, agriculture, home economics, nurse training, business training, mechanical arts and musical training. The literary training enables a student if desirous to enter any college without further examination, as the course of study complies with the Kansas State school law requirements. The agricultural course comprises general farming, poultry, livestock, and dairying. The school farm consists of 80 acres of Kansas best soil.

## Taxation Without

"Taxation without representation," is the slogan that fired the souls of the American Revolutionists, brought about that memorable social event, "The Boston Tea Party," and furnished the means by which Crispus Attucks, Negro, was the first to shed his blood for American Liberty and Independence.

Twelve million of Attucks' kindred now form one tenth of the population of our great nation, a number more than three times the population of the Thirteen Original States in those days. There is a group in this nation that insists on depriving the people of the Negro race from voting, and yet, in the matter of taxation, the Negro is required to pay. The Negro is counted in making up representation for Congress, but he is not allowed to become part of it; he is counted in selecting soldiers to defend the Union, but he is denied the right to say who shall govern him.

Those who deny furnish neither alibi nor apology. They do not claim it to be either righteous or just, they simply say it is expedient. They protest for Ireland, and Poland and Slavs and what nots, and keep the hand of oppression upon us. They are determined that this method shall continue, world without end. They claim it is the only "safe way for the superior race" to keep the "inferior race" down. They regard the Constitution of the United States, if not as a mere scrap of paper, certainly an untimely document. Their conscience, like a false face, is put on and taken off at will. They say their way MUST continue. We say, GOD IS JUST.

## NOTICE.

To the Colored People of Greater Kansas City:—

This is to inform you that I own a sewing machine factory with 50 power machines and the machinery thereto belonging, now located in one of the store-rooms of my office building, that cost me \$1,800, which is clear of encumbrance. Mr. McCamey has undertaken to get the colored people of this city to form a corporation to run it and I have agreed to incorporate it at the expense of the company for \$2,500, if he can get stockholders to take \$1,700, stock \$300 in cash with the balance subscribed. It takes \$2,000, of paid up stock to obtain a charter in Missouri. Some time ago white merchants offered to furnish me with the cloth and money to pay the operators to make up goods for them. I have too much business on hand to run the factory alone, but I can keep the ledger account and get work in from my law office. You are all at liberty to use my law office for consultation and organization. I, Harry J. McCamey, do hereby request you to meet at the law office of W. H. Payne, on the 1st, 2nd and 3rd Wednesdays in September, 1919, at 8 o'clock p. m.
